REVIEWED CONSOLIDATED INTERIM GROUP RESULTS for the six months ended 31 December 2017

According to the Namibia Statistics Agency (NSA) the Namibian economy remained in the grip of a recession during the second half of 2017. The NSA estimates that real GDP contracted by 1.9% year-on-year in the third quarter of this year, following year-on-year contractions of 2.1% and 0.7% in Q1 and Q2, respectively. The expectation is that the trend has improved slightly during the last quarter of 2017. The contracting economy saw growth in credit extended to corporates slowing to 1.3% in November 2017, negatively impacting the Namibian banking sector.

The operating environment in Botswana also remained challenging, with a 50 bps decrease in the reporate in October to 5% resulting in a decrease in market liquidity as investors search for higher yielding assets in other markets. The reduction in bank lending rates combined with the increased cost of funding caused by the tightening liquidity resulted in a further contraction in banks' interest margins.

Although still challenging, the Zambian economic environment improved during the period under review thanks to currency stability, the reduction in the inflation rate, the improved copper price and a reduction by the Bank of Zambia of its bank rate as well as the statutory reserve ratio. These factors all contributed to increased market activity and a reduction in both lending rates and cost of funding.

Considering the market conditions in the countries where it operates, the group delivered satisfactory results with profit after tax for the six months ended 31 December 2017 increasing by 6.4% compared to the prior year.

Any reference to 'normalised' in this announcement means that, for the sake of meaningful comparison, the following adjustments have been made:

- prior period results have been adjusted to include the results, assets and liabilities of the Botswana and Zambia subsidiaries as if they were acquired at the beginning of the prior reporting period; and
- capital profit on the partial sale of the Visa Inc. shareholding in line with the group strategy to realise non-core investments, has been excluded from the December 2017 results.

Net interest income

Net interest income increased by 19.6% to N\$896.7 million (Dec 2016: N\$749.9 million) largely as a result of the acquisition of Capricorn Investment Holdings (Botswana) (CIHB) and Cavmont Capital Holdings Zambia (CCHZ) which contributed 21.8% to the year-on-year growth. The normalised net interest income shows a decrease of 0.7%, which is mainly due to the 25 bps interest rate cut in Namibia in August 2017, and 50 bps cut in Botswana in September 2017. Bank Windhoek (BW) also restructured its balance sheet with slower growth in loans and advances and strong growth in liquid assets to reduce liquidity risk. With the liquid asset investments yielding lower returns, it also reduced BW's interest margin.

Impairment charges

Normalised impairment charges for bad and doubtful debts decreased by 17.3% to N\$39.5 million (Dec 2016 normalised: N\$47.7 million). Impairment charges for BW remained in line with the prior year, while the impairment charges of CIHB decreased by 31.8% as a result of large specific impairments in the prior year relating to two failures within the Botswana mining sector.

Non-interest income increased by 26.1% to N\$588.1 million (Dec 2016: N\$466.5 million). Included in the increase is the capital profit of N\$42.6 million on the sale of a portion of the shareholding in Visa Inc. On a normalised basis, non-interest income increased by 1.8% compared to the prior year. The marginal increase is mainly due to strong growth in transactional income and electronic channels within BW, offset by a contraction in trading revenue in both BW and CCHZ.

Operating expenses

Normalised operating expenses increased by 11.6% to N\$840.7 million (Dec 2016: N\$753.4 million). The above-inflation increase is mainly due to:

- three new branches opening in Namibia, including the private wealth suite which resulted in an increase in headcount;
- capacity building within our digital channels, marketing and strategic customer capabilities; and
- technology costs increasing by 17.3% as a result of the continued investment in IT infrastructure.

The normalised cost to income ratio for the period under review is 59.9% compared to the normalised cost to income ratio of 54.1% for the comparative period.

Income from associates

Income from associates increased by 39.7% to N\$51.4 million (Dec 2016: N\$36.8 million) and contributed 10.6% (Dec 2016: 8.0%) to profit after tax. The year-on-year increase is due to an increase in profit reported by both Santam Namibia Ltd and Sanlam Namibia Holdings (Pty) Ltd.

Loans and advances

Normalised loans and advances increased by 7.7% to N\$34.1 billion (Dec 2016: N\$31.7 billion). The modest growth is mainly due to subdued demand in both Namibia and Botswana, as well as the focused restructuring of the BW balance sheet to increase liquid assets and improve the group's loans to funding ratio. Non-performing loans as a percentage of gross advances weakened from 2.02% normalised to 2.96%, mainly as a result of a substantial increase in the value of non-performing loans at BW. This increase was mainly due to four large, but well secured, loans classified as non-performing during the period under review. Due to the substantial value and quality of the collateral held as security against these large exposures, potential losses are limited. For this reason, the bad and doubtful debt provisions did not increase in line with the increase in non-performing loans.

Investments

Historically, the group limited its investments in associates and subsidiaries to financial services businesses. As part of a deliberate strategy to diversify its investments beyond financial services, the group acquired a 33.3% interest in Nimbus Infrastructure Ltd when that company listed on the Namibian Stock Exchange (NSX). The group is currently exploring a number of other strategic investment opportunities, some of which are not in the financial services sector.

Funding

During the period under review, there was a deliberate strategic focus on improving the funding ratios of the group at all levels. Growth in BW funding well exceeded growth in loans and advances, thereby improving the group's loans to funding ratio to 88.1% (normalised 2016: 93.9%). Total funding increased by 34.9% to N\$37.2 billion (Dec 2016: N\$27.6 billion), mainly due to the acquisition of CIHB and CCHZ. BW's funding increased by 13.8% largely due to good growth in term deposits and senior debt.

Total risk-based capital adequacy ratio

The group remains well capitalised with its total risk-based capital adequacy ratio of 15.0% (June 2017: 14.8%) remaining well above the minimum regulatory capital requirement of 10%. The group also maintains a stable AA credit rating outlook, which emphasises the confidence in the stability of the group.

Outlook

The group strongly believes that in order to remain relevant, it needs to continue to deliver on the needs of its customers, keep pace with the explosion in new, often disruptive, technologies; and to manage the increasing risks faced by the financial services sector. This requires us to be innovative and to continuously explore opportunities presented by new investments, new technologies and new product and service offerings. In addition, the group will continue its pursuit of operational excellence and a high-performance culture. Through these strategic actions, the group expects to improve efficiencies, realise cost savings, expand and diversify revenue streams, and better manage risks. The group consequently remains positive that, notwithstanding the subdued economic and business outlook, it will continue to deliver solid results and value to all stakeholders.

Reviewed results - auditor's review conclusion

The condensed consolidated interim financial statements for the six months ended 31 December 2017, from which this information is derived, have been reviewed by PricewaterhouseCoopers, who expressed an unmodified review conclusion thereon. The review was conducted in accordance with ISRE 2410 'Review of Interim Financial Information performed by the Independent Auditor of the Entity'. A copy of the auditor's review report is available for inspection at the company's registered office together with the condensed consolidated interim financial statements referred to in the auditor's review report.

Basis of presentation

The reviewed condensed consolidated interim financial statements of Capricorn Investment Group Ltd for the six months ended 31 December 2017 from which this information is derived, have been prepared in accordance with International Accounting Standards (IAS) 34: 'Interim Financial Reporting' and the requirements of the Companies Act of Namibia.

This results announcement is the responsibility of the directors, and is extracted from the reviewed condensed consolidated interim financial statements, but is not itself reviewed or audited. The group's principal accounting policies comply with IFRS and have been applied consistently in all material aspects with the previous financial years.

INTERIM DIVIDEND

Notice is hereby given that an interim dividend of 30 cents per ordinary share was declared on 20 February 2018 for the period ended 31 December 2017.

Last day to trade cum dividend: 2 March 2018
 First day to trade ex dividend: 5 March 2018
 Record date: 9 March 2018
 Payment date: 20 March 2018
